& great dining guide

Above: For Sue Ann and Mark Cross, their Corona del Mar dream home had to offer a warm and inviting environment for family and friends, and it had to blend that comfort with elegant and unique contemporary styling. So they enlisted the help of David Rance Interiors to achieve just that. Treatments such as customized art niches, unique wall shapes, and eye-catching lighting add character and dimension to the home's interior.

Right: The outside of the home is just as interesting. When guests step through the entry gate and courtyard designed by Todd Schooler, Sue Ann says, they experience a sense of "openness and oneness" with the surrounding ocean views.
